## Many things in life require protection. Building is one of them.

Safeguard your design project with AIA Contract Documents – the Industry Standard. Strengthened by more than a century's worth of legal precedent, courts throughout the country have recognized AIA Contract Documents' legitimacy, making it one of the most effective ways to manage risk and protect interests throughout every phase of design and construction.

Widely accepted by all stakeholders because of their fair and balanced approach, AIA Contract Documents cover a complete range of project types through a comprehensive suite of over 160 contract documents. Every leap forward should have a safety net.

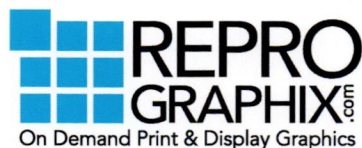

Get a 30-day free trial of AIA Contract Documents software at [aia.org/contractdocs/safetynet](http://aia.org/contractdocs/safetynet).

North Liberty Community Branch Library

**A**t Forum Architects, we view architecture as both a science and an art. As a science, the field calls us to understand the materials and craftsmanship that combine to create a solid, functional structure. As an art, architecture employs shapes, colors and textures to make a building compatible with its environment and a place in which the lives of users are enriched.

**ABOVE:** Farmhouse design of new branch library establishes connection with community, inside and out.

**RIGHT:** Animal shapes used throughout children's area reflect images of meadows surrounding a farmhouse.

Since 1994, Hoch has provided full architectural, engineering and interior design services for complex, budget-driven and schedule-minded projects throughout North America. Hoch is licensed in over 40 states and specializes in healthcare, telecommunications, education, business, industrial and specialty precast concrete engineering.

**ABOVE:** This unique facility, which received an AIA Merit Award, acts as a "health services mall," which consolidates various health and social services agencies previously located at various sites scattered throughout the city and county under one roof.

**RIGHT:** The stone and brick of the exterior are also expressed inside the common waiting area, around the reception desk and at the central column.

**T**he mission of Schmidt Associates is to lead a process for Owners founded on mutual respect and shared investment. Founded on the principle of Servant Leadership — a core value that places the client's goals and aspirations at the forefront of our professional commitment to excellence — the firm opened its doors on July 4, 1976. Today, Schmidt Associates is a multi-disciplinary firm providing comprehensive planning, architecture, engineering, and construction delivery services to the educational and urban markets.

**ABOVE:** The new east classroom wing addition draws its inspiration and proportions from the existing building, extending historical datum lines through the new building. To the right of the main building, the exterior terrace of the new commons/dining space opens onto the front lawn.

**RIGHT:** The historic central stair — with its restored balustrades and handrails — rises majestically through the three stories, bringing natural daylighting to the core of the building.
